Thank you for registering with iShip.com

In the next few pages we will be asking you to complete the following steps so that we can provide you with the most accurate rates to support your shipping needs.

1. Provide your E-mail and Return Address.
2. Tell us what carriers you use and from where you ship your packages.

Additionally, if you will be using our E-Commerce features, you will also need to tell us which services you will use to ship to your buyers. After registering, you will be sent an e-mail containing your user ID and password.

If you are ready to begin, press the Next button below.

E-Commerce

If you sell your products using online auctions, classified services or your own Web Site iShip.com can offer you a way to not only show your Buyers what they will pay for shipping, but also automate the entire post-sale process

We will help you notify the Buyer of the total sale price - including shipping, getting the Buyer's shipping selections, getting the shipping address and even collecting credit card information for you to process. We can also let you add your business's handling charges without having to calculate percentages or subtotals. We do the work for you.

To setup your Selling Preferences you will need to do only three easy steps:

1. Select the services you will use to ship your products. The Buyers will see only the services you select.
2. Select how your shipping charges are displayed. Is your shipping included in the sale? Do you charge for handling? We will make sure the price is right.
3. Select what kinds of payment you accept. We will find out how the Buyer is going to pay. We will even collect credit card information for you to process.

You can set these preferences up now or later, but if you would like to do it now, press Continue. Otherwise, press Finish to complete registration.

Send Ship Notify.

UPS End of Day

Log Off

End of Day

Print a driver record for packages shipped.

UPS requires its customers using computer based shipping systems to perform "End-of-Day" at least once each day a package is shipped. This will produce a driver record and send an electronic record of your packages to UPS, ensuring proper billing. This is only required, however, if you are using your own UPS account. You should perform End and print your driver record before the driver arrives.

You have shipped XX packages since your last driver pickup.

Perform End

Reprint

Reprint a driver record from a previous End-of-Day.
